Key Concepts: Legend Editor (Classify, and Typing New Labels)

1990 Population for Massachusetts Communities was converted to a percentage. In the "Classify" box, we changed the number from 5 to 3. This regrouped the percentages into only 3 groups not 5 groups. We used the 3 groups to type new labels.

Legend Editor: By selecting the symbol, you can type in the label you want to appear in the View's Table of Contents. We used Low, Medium and High
